

## Ring-Gliding Horse Walker, Round

Clear center lunging ring

**Kraft** ...keeps your horses fit!

Horses love roaming. In their natural environment they will cover up to 50 KM (30 miles) daily in search for food.

A horse's health and vitality is directly linked to the amount of exercise it gets.

The Ring-Gliding horse walker provides an unobstructed inner area that can be used for lunging or turnout.

The partial roof allows the walker to be used year-round and also protects the horses from wind and rain.

 Kraft - *keeps your horses fit* - from walk to gallop.

## Ring-Gliding Horse Walker, Round

 4 to 10 horses, 12 to 30M diameter (up to 100')

 Hanging/rotating gates Type C

 See also Technical Spec document

## Advantages

-  Unobstructed inner area
